

E-governance committee was formed in the year 2019 with the sole vision of enhancing the system of governance for development of the institute using new and cutting edge technologies. This is planned to be achieved by developing projects within the institute to tailor make the solutions to the existing systems in the college. The broad areas of e-governance committee are initially planned to be in the fields of examinations, admissions, day to day operations of departments and management information systems and stake holders inclusion in a staged manner. The team also aims at planning and facilitating any infrastructure for the deployment of cutting edge applications and development of solutions for seamless administration of the institute.

#### **Vision:**

To enhance the system of governance for development of the Institute using Information and Communication Technology.

#### **Mission:**

Develop new ideas and scalable solutions using the state-of-the-art digital technology.
