## BMS Engineering Consultancy Centre Committee (BMSECCC)

### About the Consultancy Cell

The Consultancy Cell of BMS College of Engineering serves as a vibrant interface between academia, industry, government, and society. It is designed to foster knowledge exchange, provide innovative solutions, and address real-world challenges through collaborative projects. By harnessing the multidisciplinary expertise of faculty members, the Cell promotes research-driven consultancy, practical problem-solving and sustainable innovation for the benefit of all stakeholders.

### Our mission is to:

- Provide **industry-focused consultancy services**.
- Promote **collaborative research and development projects**.
- Support **government and community initiatives** through technical expertise.
- Generate **revenue for the institution** through consultancy and training.
